

Our Services

Professional power washing is much more than spraying pressurized water on surfaces to wash away unwanted layers of dirt. Eco Wash BC uses specialized equipment and nozzles for each surface. Different wood types require nozzle and pressure adjustments for optimum results and to minimize damage to the surface and texture of the wood.

A wide variety of specialized enviro friendly cleaning products are used, not just for various surface types, but also based on each site's particular needs. Every type of grime or soil requires its own process to be removed, removing algae or mildew from a roof or a deck is much different than removing oil stains from parking lots and driveways.

Our service includes expert cleaning of:

- single family homes and town homes
- town house complexes and low rise condominiums
- low rise industrial properties and office blocks

As well as

- unusual jobs

Single family homes and town homes

The rainy climate in BC can play havoc with the exterior of your property. During the damp winter months mildew and moss develops on external surfaces and trees provide the perfect shade for it to grow. Cleaning the exterior of a home is a huge chore, especially if you don't have the proper pressure washing equipment.

We do the work for you using only enviro friendly cleaning products. We clean the exterior of your house including:

- decks/ patio
- siding - brick, aluminum, vinyl and stucco
- driveway and sidewalks
- roofs and guttering
- windows

Professional power washing of your home is a smart investment because:

- your home looks great
- the value of your property is increased and it makes a great first impression to potential buyers
- it makes a lasting impression on guests, family
- if you're looking to paint, clean surfaces mean superior paint jobs that last for years
- surfaces are protected- many people don't realize that algae and mildew can cause damage similar to that of wood-destroying insects such as termites
- through annual cleaning, improve paint life and remove mildew and spores that can cause allergies and destroy many different surfaces

Don't risk cutting your hands cleaning out gutters or slipping off mildew covered roofs, call Eco Wash to day for a quote on cleaning the exterior of your home.

Town House Complexes and Low Rise Condominiums

Cleaning a large number of buildings, which experience heavy usage from the occupants, and keeping them clean, can be a daunting task. Mildew, dust and cobwebs build up on the outside walls, and walkways quickly become unsightly with moss and algae.

Regular power washing ensures that your buildings always look their best and homeowners looking to sell their property know that clean exteriors will draw prospective buyers into their home.

Contact Eco Wash BC for a quote to clean:

- parking lots or garages
- walls and fences
- siding - brick, aluminum, vinyl and stucco
- driveway and sidewalks
- roofs and guttering
- pool area

If you are unfortunate enough to have graffiti painted on your walls, we can clean the tough stuff as well.

Low Rise Industrial Properties and Office Blocks

Power washing is the most cost effective method of restoring and maintaining a property over time it's also good for your business image. Eco Wash BC's power washing safely restores and cleans almost any commercial surface using our efficient enviro friendly cleaning products and our state of the art cleaning equipment.

We suggest regularly power washing of surfaces which renews, cleans and restores surfaces, making your business stand out.

Our commercial and industrial cleaning service includes:

- store fronts
- parking lots
- parking garages
- walls and fences

Cleaning the Tough Stuff

Having your walls defaced with graffiti can be frustrating, knowing that it could damage the image of your business is annoying and trying to find a way to remove it time consuming. It can also be costly as some of the local councils like Vancouver and Langley are going so far as issuing fines for graffiti tags. Contact Eco Wash BC help you get a handle on this problem today!

Chewing gum is another hard to remove substance commonly dropped on walkways used by the public. Chewing gum is one of the hardest items to remove through normal cleaning. Let Eco Wash use our tested methods to get rid of it for you.

To keep your premises in top shape why not let us quote on regular power washing of your business.

Unusual Jobs

There are some cleaning situations where power washing may not be the first solution that comes to mind. These include:

- cleaning of vehicle fleets such as trucks, trailers and even boats
- new concrete tag removal – making buildings move in ready
- agricultural equipment cleaning
- preparation of exterior surfaces before painting.

All of these surfaces can be cleaned effectively by Eco wash BC using our environmentally friendly cleaning products.
